*Empowering People  
Changing Lives*

**MISSION STATEMENT**

The Point Hill Diagnostic Reading Centre is a non-profit, non-governmental, community based organization dedicated to empowering community members through the provision of our core services of diagnostic and remedial reading programs and related life-enhancing skills and competencies, to enable individuals to realize their full potential as useful and productive citizens

## EDUCATION CENTRE

---

### *Literacy Classes*

The Centre currently works with struggling readers from the Point Hill Leased Primary and Junior High School. The goal is to raise the students' literacy levels. Students are assessed prior to instruction and are evaluated continuously.

### *Formal Assessment and Intervention*

The closest available institution for formal assessment (for students with specific learning challenges) is in Kingston (MICO Care Centre). Our Centre is working in conjunction with other related agencies to provide not just formal assessments but also intervention classes.

### *Eye Testing-Community & Schools*

### *Information Technology*

The Centre is equipped with a state of the art computer lab. This lab serves the community through:

- *Computer Courses*

The Centre offers a basic, introductory and an advanced computer course.

Through partnership with HEART - Luidas Vale national certification is now available.

Children computer classes are also held weekly.

- *Literacy instruction is computer-aided*

### *Reading Workshops*

These are conducted with the teachers from schools in the immediate community.

### *CXC Preparation classes*

The Centre offers classes in English, Math, Accounts, POB, and Human & Social Biology.

### *Resource Centre*

The Centre boasts a mini library for the teachers and students. Reading programmes, storybooks and educational games are available here.

## BUSINESS CENTRE

---

### *Office Services*

Printing, copying, typing and facsimile services are all available at reasonable prices to the community. Normally, these services would have to be accessed in Spanish Town.

### *Internet Café*

Members of the community now have access to computers to do research, School Based Assessment projects-CXC, surf the net, play games and type resumes. This service is highly utilized and available throughout the week and Saturdays.

### *Other Services*

- Designing flyers and posters
- Designing programmes for special events – graduations, funerals, weddings
- Lamination
- Scanning.

*The Board of Directors* invites you to support the PHDRC to create a stable and financially secure framework in which to continue our educational efforts. By providing high quality and effective services for our children, teachers and community we are empowering Jamaicans and changing their lives.

One method of support is by becoming a '*Friend*' of the Centre.
